Vision

To enter into global economy accepting the challenges of barrier-free trade as a dynamic force.

Mission

- To turnaround performance of the company into sustainable growth for the benefit of its stakeholders.
- To stand the test of expectations of our valued customers redefining excellence with craft, creativity, professionalism and quality control.
- To strive hard for boosting exports of the country to earn more foreign exchange to rebuild the economy.

Our Core Values

Underlying everything we do and everything we believe in, is a set of core values. These guide us to deal with every aspect of any issue we might encounter in our personal and professional lives. These values help us grow inside and outside, personally and as an organization.

Introduction

We, the J.K. Group of Companies, have its origin in the city of Faisalabad, home of textiles in Pakistan. It has an enviable business history of over six decades from the modest start in 1958 with the formation of J.K. Group, culminating into a leading manufacturer / exporters of textile products.

Current Setup

Group owns a potentially large setup of Textile Spinning, Weaving, Processing and Stitching under the umbrella of J.K. Spinning Mills Limited, a public limited company listed on Pakistan Stock Exchange. It comprises of 149,188 spindles having capacity to produce around 46 million kg cotton / polyester yarn per annum. In addition to spinning operations, the Group also has its own in-house weaving, processing and stitching facilities, producing and exporting range of products including Fabric Sheeting, Percale, Drill, Twill, Stripe Satin, Hospitality Textile, Hospitality Garments, Home Textile, Terry Towels, etc. in global markets.

Company has installed its own gas-based power generation having capacity to produce 23 MW, parallel to national grid supply.

Further, a solar power plant, having capacity to produce 1.4 MW has also been installed to promote green energy.

Future Plans

Another state-of-the-art spinning unit comprising of 52,896 spindles is currently under implementation, which will enhance the yarn production to 62 million kg per annum by March / April, 2023.

Company is also expanding its processing unit capacity from 3.5 million meters to 5 million meters per month which is currently underway.

Company has also planned to setup a weaving unit in near future, comprising of 144 air-jet looms. It will be a state-of-the-art project, designed to produce 18 million meters fabric per annum, targeting the customers in global markets.

Capacity of solar power plant will be increased from 1.4 MW to 7 MW in near future, for that the negotiations with different suppliers are underway.

Smart Governance

We are committed to running our business successfully and efficiently, providing long term benefits to our shareholders and employees, and enriching the lives of those whom we serve by fulfilling our corporate responsibility to the best of our ability. We expect excellence from all departments, whether they relate to policy formation and accounting procedures or product development and customer service.

Working Environment

Our policies and core values are aimed towards creating an informal yet stimulating team-oriented working environment with a culture of sharing and open communication. We appreciate the diversity of viewpoint of every individual as we realize this encourages innovation and develops character.

All employees have the right to a stress and injury-free working environment. We ensure our employees' safety and health by providing various in-house facilities. Our staff understands and upholds our safety policy.

Our Family

The success of any organization is largely dependent on the people working for it. Each member of our team is considered equally important and provided constant training, motivation and guidance. We possess a dedicated staff of the highest caliber capable of making our business a success story. Our Human Resource Development's core objective is to create human assets for the organization.

We ensure that every employee has the opportunity for maximum professional development. To achieve this goal, we seek to provide challenging work prospects for all employees. Each person is compensated and rewarded for his / her performance and hard work on a strict merit basis. We feel proud to mention that the job tenure of our many employees is ranging between 15 to 30 years, and that reflects our sound policies and comfortable working environment.

Conservation

We expect and encourage our employees to actively participate in community service and to take care of the environment entrusted to us being citizens sharing the earth's resources.

Customer Satisfaction

We are customer-driven, we go the extra mile to make sure that our clients' expectations are met and exceeded. We partner with leading companies to arm ourselves with the latest technology and provide customers with innovative solutions in the most cost-effective manner available.

Ethical Behavior

In J.K. family, there is an all-round respect for elders, tolerance for equals and affection for youngsters. Managers are expected to lead from the front, train junior colleagues through delegation of work, resolve conflicts speedily, be vigilant at all times and act as role-models for others.

We make sure that all our processes and methods conform to the highest ideals of professional behavior. Our organizational structure is straight-forward and need-based, accountability is transparent, consistent and both horizontal and vertical.

Gender Indiscrimination

We are committed to provide equal opportunities to our female staff by providing a comfortable, safe and respectful working environment. We focus on, that no such discrimination is exhibited, and either work related or otherwise, throughout the organization at any level.
